

RACE MANAGEMENT EQUIPMENT 2014

We are keen that there is consistency in race management and equipment is one area in which we feel we can assist by offering equipment to race officers and mark layers at cost prices. The following equipment has been used successfully over a number of years. This equipment may not be the most sophisticated or expensive but does the required job simply and well.

The Garmin GPS 72H

The **Garmin GPS 72H** is a simple hand held GPS unit, as recommended for all Olympic race officials. A necessity for all mark layers for measuring angles and distances. The unit comes with a protective nylon case and a marine mount that can be attached to the RIB console to assist viewing whilst driving.
Price £126 including VAT and delivery

The **Bushnell TOUR V2 Laser Rangefinder** is a simple, easy to use rangefinder which comes with a protective case, unfortunately the rubber covers supplied previously are no longer produced. Ideal for measuring start lines, gates and similar lengths up to around 400 metres.
Price £192 including VAT and delivery

The Bushnell TOUR V2 Laser Rangefinder

The Windtronic 2 anemometer

The **Windtronic 2 anemometer** is a simple unit for measuring wind speed, the wind cups are housed in a protective housing and the unit is not direction sensitive. The unit has a clear, legible, large LCD display with current, maximum and average wind speeds in various units and comes with a nylon protective case with belt loop.
Price £58 including VAT and delivery

The **ICOM M73 PLUS handheld radio** is a simple VHF radio with excellent noise cancelling and voice recording features as standard.

- Submersion rating of IPX8, 6 watts output, long battery life and a compact ergonomic body.
- Ideal as a solid, dependable handheld VHF that you can rely on!
- Comes with mains charging unit.
- Private channels can be programmed into the radio but extra time for delivery needs to be allowed for this programming

Price £200 including VAT and delivery.

Optional accessories include the HM167 waterproof lapel speaker / mic for £70 and the OPC1392 / HS94 earpiece and boom mic for £55, these items again need to be programmed separately.

Please contact me for more details.

The ICOM M73 PLUS handheld VHF radio

Working out angles and their reciprocals mentally under the pressures that race officers face as the starting sequence approaches can lead to incorrect numbers being used.

The **Roberts Bearing Indicator** provides instant angles to wind, visually presented, for the start and/or finish lines, bearings to and from the windward mark and other marks of the course.
Price £9 including VAT and postage

The Roberts Bearing Indicator

Payment arrangements;

Payments for the Rangefinders, GPS units and VHF radios are due to the RYA.

Payments for the Windtronics and Bearing Indicators are due to David Campbell-James

All remittances should be sent to David Campbell-James at Church House, Church Farm Lane, Sidlesham, Chichester, West Sussex PO20 7RE
